

PIAGGIO®
Move Beautifully

WE ARE TRANSFORMING MOBILITY THANKS TO A BLEND OF TECHNOLOGY AND ART, A COMBINATION OF NEW IDEAS AND UNIQUE DESIGN. WE ARE SHOWING THE WHOLE WORLD THAT FUNCTIONALITY CAN BE FUN AND THAT PRACTICALITY CAN ALSO BE A THING OF BEAUTY. WE WANT TO ENSURE THAT PRESSING THAT START BUTTON SETS OFF REACTIONS THAT WILL TRANSFORM MONDAY MORNINGS INTO AN EXCITING EXPERIENCE, WHETHER IT BE THE SCRAMBLE TO SCHOOL, THE HOURS SPENT IN TRAFFIC OR THE PANIC PHONE CALLS MADE WHEN THERE IS NO MORE BREAD LEFT AT HOME. LET'S ENJOY EVEN THE MOST MUNDANE OF ROUTES AND MAKE OUR JOURNEY THE HIGHLIGHT OF THE DAY.

#SMARTSIDEOFFREEDOM

Liberty combines your practical side with your sense of style. A punchy 3-valve i-get engine, a compact body for agility and an iconic design. Inhale the practical and stylish fragrance of life every day.

LIBERTY

50 i-get / 125 i-get ABS
150 i-get ABS

Its fluid elegance will fit you perfectly. Built to support your independent spirit, Piaggio Liberty dresses up its 125 e 150 cc models with chrome-plated finishes and LED front lights. A compact body, high wheels and rearward passenger footpegs all contribute to its iconic design, providing you with an extraordinary sense of stability and protection, yet without compromising when it comes to an agile ride. Piaggio Liberty captures you with its look and convinces you with its equipment, combining brilliant performance with maximum comfort. It boasts a 3-valve i-get engine for contained consumption, ABS at the front wheel only on the 125 and 150 cc to ensure optimum braking in any condition, a roomy underseat compartment with electrically operated opening, and analogue and digital dashboard with LCD display.

ABS

The Piaggio Liberty 125 and 150 come with ABS at the front wheel only, guaranteeing your safety and allowing you to enjoy two-wheeled freedom to the full. Add to this the excellent handling and ergonomics, meticulously researched to ensure a unique riding experience.

INIMITABLE STYLE

LED front lights (on the 125 and 150 cc), a distinctive technological element of Piaggio's "high wheels", enhance Liberty's design. Sophisticated elements such as split-spoke rims help to define the elegant and unmistakable look of the vehicle, a contemporary style icon.

DIGITAL DASHBOARD

The electronic dashboard adopts a modern and elegantly blue-lit LCD display with digital fuel level indicator and odometer, offering the rider the best available technology.

COMFORT

Comfort is enhanced thanks to the attention paid to the ergonomics of both the rider, who can count on a correct riding triangle thanks to the low saddle, and the passenger, who can enjoy the comfortable retractable footpegs and room ensured by the long saddle. The bike's solid structure, compact dimensions and large diameter wheels convey a sense of stability and protection even for less expert riders, ensuring Piaggio Liberty is a sturdy and reliable travel companion.

PRACTICALITY

The underseat compartment with electrically operated opening is among the most spacious in its category and can hold a jet helmet with visor. A handy front compartment divided into 2 sections is available for small items. Practicality also means ease of movement, thanks to the reduced weight and a saddle height that is more accessible to everyone: your everyday ally for smart and independent mobility.

TECHNOLOGY AND PERFORMANCE

Piaggio Liberty is powered with the Piaggio i-get engine family, harnessing "Italian green experience technology". All engine capacities are equipped with electronic fuel injection and 3 valves in order to ensure the greatest performance as well as minimum consumption. Reliable and offering reduced maintenance costs, the engines are also extremely quiet and efficient in any riding condition. The 50, 125 and 150 cc engines comply with the Euro 4 emission standard.

NATURALLY COOL

LIBERTY S

50 i-get / 125 i-get ABS
150 i-get ABS

The "S" version expresses all the energy of your personality and dynamism of your daily life. Details that set the style tone: the saddle with exclusive finishes, the diamond-edged wheel rims and the black rear view mirrors. 3 engines are available: 50, 125 and 150 with ABS at the front wheel only, with a Matte Titanium Grey or Matte Red livery so that you can stand out with a touch of style.
